Wireless Presenter Cue w/ XLR connector

### Description:

Remotely control power point presentations up to 350ft away.

**Item:** PQ141A-RF4-XLR

**UPC:** 788581659724

**EAN:** 0788581659724

**Stock Status:** Usually in stock.

**Dimensions:** 4.5" x 4.5" x 2.5"

**Weight:** 2 lbs.

**MSRP:** \$785.00

## Specifications

- Two RJ45 CAT-5 connectors for accessories.
- Includes XLR connectors for accessories.
- May be powered using USB for stand alone use.
- The PQ141A requires AC/DC power when using the wireless remote or when connecting multiple Presenter Cue units together.
- Ground closure 200mA output for optional additional beeper. (not included).
- Construction: Metal enclosure, black powder coated finish.

- Power requirements: 7-15 VAC or 10-18 VDC power.
- Current consumption: 100ma.

## Features

- Connect the PQ141A to any computer using a standard USB cable. On the computer, bring up your favorite presentation program. It will work seamlessly with the presentation program. To the computer, it will appear as an additional USB keyboard.
- Start a presentation from the beginning. This command sends the F5 key to the presentation software.
- Go to the Next slide. This command sends the Right Arrow key to the presentation software.
- Go to the previous slide. This command sends the Left Arrow key to the presentation software.
- Pause/Resume the presentation. This command sends the B key to the presentation software.
- End the presentation. This command sends the ESC key to the presentation software.
- CUE lights can be set to any brightness or turned off.
- Beeper can be set to one of several sounds or turned off.
- Multiple wireless transmitters may be paired to the Presenter Cue.
- Since wireless transmitters are paired to a specific presenter cue, multiple systems can be in the same area and not interfere with each other.
- Connect two or more Presenter Cue's together so that the CUE lights can be seen from multiple locations.
- Made of ruggedized aluminum construction.

## In the Box
